

# Essential Items Checklist

(02) 6760 7555

Moving house is never easy, but to help sort things at your new home we recommend you pack a bag of Essential Items. This will make it easier on moving day and the first night in your new home.

Mark the bag so it is easily seen and ensure it is separated from the items to be loaded onto the moving van or trailer. Carry the bag with you during the move.

Carrying valuable items with you will also help ensure that they are not lost during the move.
