Hayley Jensen has wowed millions of music lovers for over a decade. From when she first won hearts and became a household name in the 2nd season of *Australian Idol*, to her electrifying return to TV with a 'chair-turning' blind audition on *The Voice* in 2014.

Hayley is also a chart topping recording artist in her own right, with her sophomore album, *Past Tense & Present Peace* debuting at #1 on iTunes Country Chart, and her latest release *Turning Up The Dial*, produced by a Grammy Award winning producer in Nashville, TN, reaching #3 on the ARIA Country Album Charts, amongst esteemed country icons, Keith Urban and Kasey Chambers.

Hayley's success in country music has been recognised with an Australian Independent Country Music Award and Finalist position in the 2018 Country Music Channel (CMC) Awards. Jensen has just returned from Canada, where she was invited to perform as an International headline act at Dauphin CountryFest, Manitoba, and the Calgary Stampede.
